

## THE UNMARKED GRAVE IS A TRAGEDY

Did you know that our Great-grandparents, Archibald Ison and Mary(Polly) Gilliam Ison, have lain in unmarked graves for almost one hundred years?----- They were our PIONEER ANCESTORS, every one of us can trace our descent to one of their ten children or their ninty-one grandchildren.

All of these are dead and have gone on by now, but we are here,-- their great and great-great grandchildren with pride in our hearts and a duty of loyalty to our family.

Lives not recorded and graves unmarked are soon unremembered and forgotten. We love the Ison name and we love our ancestors, so let us not call it a duty but a SPECIAL PRIVILEGE to put this marker to their graves lying near the ancestral home.

"Many hands make light labor"--- so please send your small amount to join the many others. A receipt will be given to all donors and a picture will be taken and sent to each one to put in their Family History.

Remember--- "The quility of ones ancestry count for much, The glory of the children are their Fathers".

Thanks so much for a prompt reply.

1961 \*I remember that I sent \$.

Have 2 pictures dated 1961

#1 2<sup>nd</sup> great grand children @ placing of headstone for  
Archibald Ison + wife Mary

#2 Great grandsons.
